COMMENT

For the 5-working day rolling window considered for the LNG price assessment, ACER collected:

Eligible for price assessment:

- 9 spot Deliver ex ship (DES) transactions for the relevant delivery period,
- 1 firm spot DES bids.

Please note that by the time of publication there have not been any new transactions concluded and reported for today's assessment date. ACER's LNG price assessment relies on the LNG market data reported – the facts on transactions, bids and offers. All IT systems are up and running. 67 LNG market participants are registered and can report. LNG market participants are reminded on their reporting obligation and encouraged to report their LNG market data via TERMINAL.
